MESSAGE FROM MR. BROWN

It is with pride that I share my support and accolades to the 5th grade students. I admire how the students have cultivated their sense of voice, choice, and student agency. Its empowering to know that students are cultivating their perspective building and developing their awareness of issues occurring locally and nationally. The great news is that I have an opportunity to foster student growth with the reconfiguration of 5th grade now remaining in Jackson Main for 6th grade. They are our future leaders and we must treasure their voices because they are our future.
