

RAINBOW ART in the time of Coronavirus

Children all over the world are turning to art to cope with quarantine and communicate messages of hope.

Barack Obama School participates in Rainbows in Windows

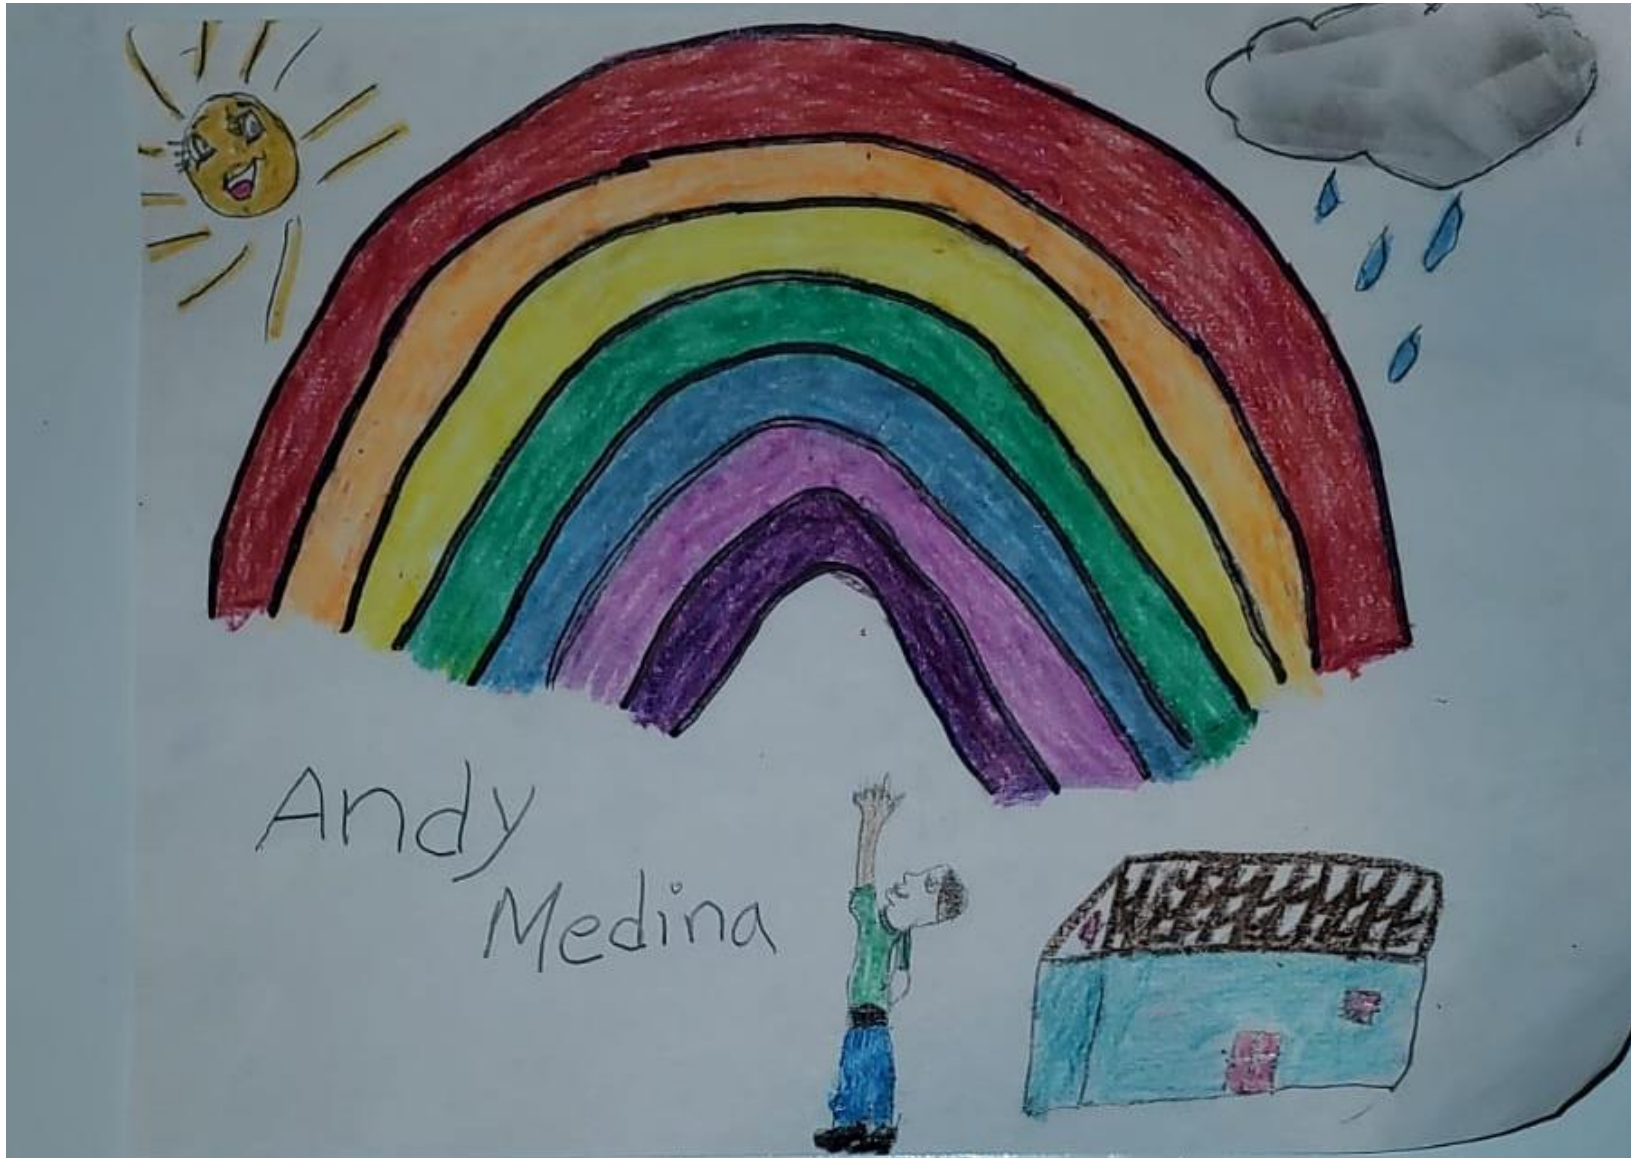

Featured Student Examples:

Madelin Zavala 5L

I can tell you how rainbows form in nature.

A rainbow occurs when sunlight light is reflected off of raindrops.

Andy Medina 1/C

Melanie Salvador. L1

James Rivas Grade 1 \C

I can investigate color theory as I design the correct color sequence a rainbow.

RED, ORANGE, YELLOW, GREEN, BLUE INDIGO AND VIOLET
