

I have a Rainbow Garden  
For inside of it you'll see  
Every color you would find  
What a rainbow ought to be

The blue is for Forget-me-knots  
Yellow for Daffodils  
Red is for my gladiolas  
My flowers are such a thrill

Green creates the many leaves  
Of my Rainbow Garden too  
I get such peacefulness  
I would love to show it to you

My roses, oh I have many  
My palette of color shades  
I must enjoy them daily  
For the time for them will fade

So if you're feeling weary  
And you don't know what to do  
Plant flowers of all colors  
And have a Rainbow Garden too!
