<tr>
<td>- It might not taste exactly like real meat.</td>
<td></td>
</tr>
<tr>
<td>- It’s slightly more expensive than real meat.</td>
<td></td>
</tr>
</tbody>
</table>

**Try It!** Next time you’re at the grocery store or watching TV, look for meatless products and how they’re advertised. What names do companies give the products, and how do they promote them?
On-Target Ads
After reading “YouTube Trouble” (February 28, 2020), use the data from consumers below to create a targeted advertisement.

Directions
You are in charge of new products at the clothing company ThreadMeister. The company is making plans to design and release a brand-new product. Analyze the consumer-data table below to decide what type of product it will be (jacket, clothes, shoes, etc.) and what details it will include. Then create a banner ad for the product that will be seen on other websites.

Part 1: Consumer Data

<table>
<thead>
<tr>
<th>The data shows...</th>
<th>This means the product should...</th>
</tr>
</thead>
<tbody>
<tr>
<td>Most customers come to ThreadMeister to buy jackets.</td>
<td></td>
</tr>
<tr>
<td>Many ThreadMeister customers also shop for hats, scarves, and boots.</td>
<td></td>
</tr>
<tr>
<td>Most clothes that are bought are dark in color: blue, black, or charcoal.</td>
<td></td>
</tr>
<tr>
<td>The majority of ThreadMeister customers live outside of cities and in colder climates.</td>
<td></td>
</tr>
<tr>
<td>Customers typically spend $100-$150 at the site.</td>
<td></td>
</tr>
</tbody>
</table>

Part 2: Create a Banner Ad
This ad should contain the name of the company, the product, and a piece of information about the product that will appeal to its target audience.

Discuss: What are the pros and cons of companies collecting your data?
Use all articles from the February 28, 2020 issue of TIME for Kids to answer the questions.
